

Postdoctoral position in New York City in stem cells, hematopoietic and erythropoietic biology

Department of Cell Biology
Albert Einstein College of Medicine
Bronx New York

Description: A postdoctoral position is immediately available for a highly motivated candidate to work on NIH-funded projects in the laboratory of Dr. Eric Bouhassira.

The successful candidate will contribute to our program to develop methods to differentiate induced pluripotent stem cells (iPSCs) to produce hematopoietic stem cells, red blood cells, and engineered red blood cells for transplantation and transfusion support.

Qualification: Candidates with a Ph.D. degree in biomedical science or related discipline are encouraged to apply. Strong motivation, good communication skills and the ability to work independently are required. Previous experience in relevant fields, including iPSCs and hematopoietic cell culture, xeno-transplantation and molecular biology techniques is desirable.

Job Duties:

Plan, direct and conduct research experiments.

Evaluate and analyze data.

Establish new research protocols and procedures.

Summarize research findings and publish results in research journals.

Environment: The Bouhassira Lab is part of the Department of Cell Biology, the Stem Cell institute and the Cancer Cancer Center at the Albert Einstein College of Medicine located in the Bronx in New York City.

Einstein is one of the nation's premier centers for biomedical research with top notch researchers and outstanding state-of-the-art facilities.

Successful candidates will be offered generous salary and benefits, including College-owned postdoctoral housing in a pleasant residential neighborhood near the medical school.

How to apply: Please send a cover letter describing research interests and accomplishments, CV, and the names and addresses of three references to eric.bouhassira@einsteinmed.edu.

The Einstein base minimum salary for postdoctoral positions is \$56,485. For a complete list of the postdoctoral salary ranges, please visit our website: <https://www.einsteinmed.edu/research/belfer-institute/postdoctoral-policies/>

The Albert Einstein College of Medicine is an Equal Opportunity/Affirmative Action Employer. All qualified applicants will receive consideration for employment without regard to race, color, religion, sex, sexual orientation, gender identity, national origin, age, protected veteran or disabled status, or genetic information. Einstein seeks candidates whose skills, and personal and professional experience, have prepared them to contribute to our commitment to diversity and excellence, and the communities we serve.
